

ADVISOR HOME OFFICE

Password Enhancements

March 6, 2021
for internal use only

Information security is critical in being a Partner for Life

What this means: The standard format for report passwords have been modified to make it less easy for outsiders to guess. Advisors' income statements can now have additional protection via one-time passwords (OTPs) sent to advisors' mobile phones.

What this means for you:

1. You will have to adjust the password format when opening client and production reports. Don't worry, the format is still explained in the panel that appears when you press the Download button.
2. You will be able to access Income Statements using an OTP, to ensure that it cannot be opened without your consent.

Modified Report Password Format

Download report ✕

This BIR Form will be downloaded in a password-protected PDF file to ensure the security of data.

PASSWORD FORMAT:
Type in your last name with first letter in uppercase followed by your date of birth (MMDDYYYY) plus the last 4 digits of your advisor code.
e.g. Delacruz101219805620

By clicking "Download", you acknowledge that the information you are about to download is covered by the Data Privacy Act and other applicable laws and should be kept **strictly confidential**. You also undertake not to use the information for purposes other than providing Sun Life Financial products and services to your client, and confirm your compliance with your obligations on data protection under your Agent's Agreement, including its [supplement](#).

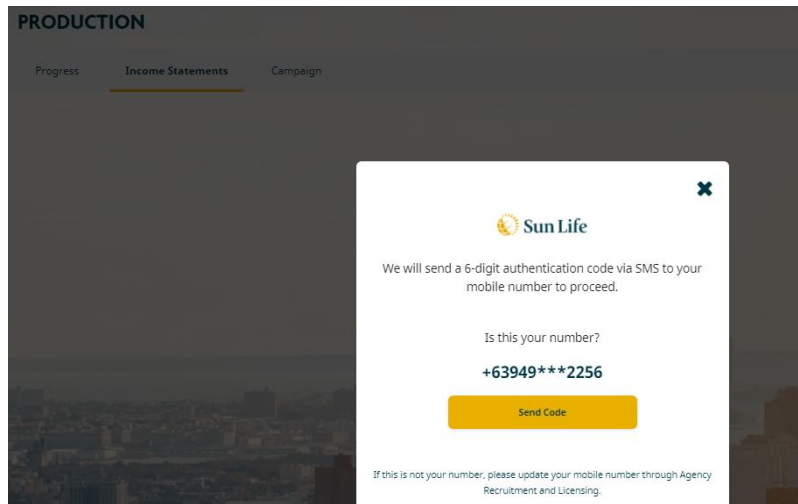

Download

Why the change? Increased security for reports with personal identifiable information of both clients and advisors.

Format	Previous: Last name in lower cases + year of birth New: Last name with first letter in uppercase + date of birth (MMDDYYYY) + last 4 digits of advisor code Last name: Dela Cruz DOB: March 12, 1990 Advisor code: 123456 Password: Delacruz031219903456
Rules	• No spaces – "Dela Cruz" > Delacruz • Special characters included – "Tan-Ho" > Tan-ho • Suffixes may or may not be included depending on encoded last name
Affected pages	• Premiums Due • Flagged Policies – VULs with shortage, Overdue payments • Client Reselling – Maturing policies, NBO • All Clients • Income Statements – ACS, BIR • Team Reports including downloads per advisor – Life and MF • Persistency Reports

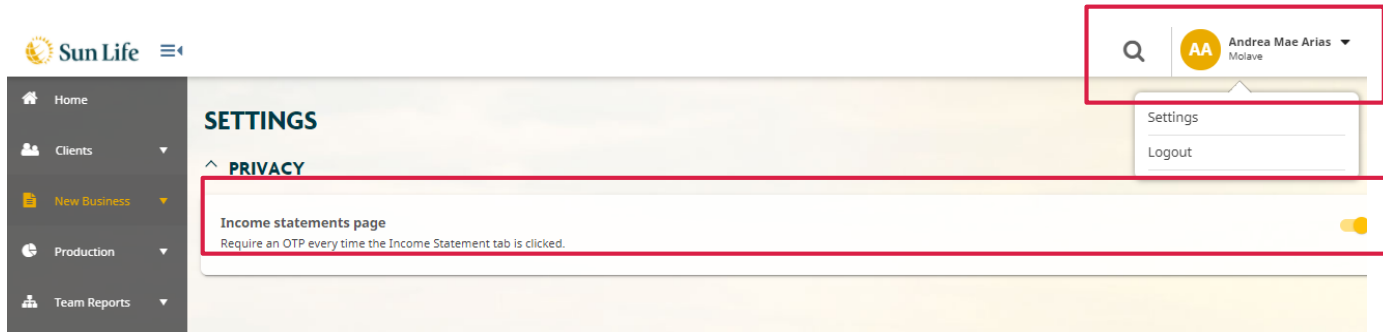

Using the Income Statement OTP

1. Enable the OTP in Advisor Home Office > Settings (*One-time step only*)
2. Receive and enter the OTP every time you open the Income Statements tab under the Production page

Why the change? This gives you the option to add an extra layer of security when accessing your income statements. If you are sure that no other persons are able to access your Advisor Home Office account, you don't need to enable this.

How to setup OTP: Advisor Home Office > Settings

1. Ensure your current mobile number is registered with Agency Licensing and Recruitment
2. Go to Advisor Home Office > Settings
3. Set the "Income statements page" toggle to ON (Yellow)
4. When it is ON, you will receive an OTP on your registered mobile number.
5. Enter the OTP in the prompt that appears in AHO.

Income Statement OTP reminders

- When activated, the OTP is required only once for every session.
 - If you visit the Income Statements page and complete the OTP, go to another page, then return to Income Statements, you will not be required to enter OTP again.
- Advisor will be required to go through OTP if he logs out or if the auto-log out session is reached, and then logs in again.
- Maximum of 5 failed OTP attempts. After which, advisor can log out and try again.
- Once you get to open the Income Statements page, the Income Statement PDF document still has a password (see Modified Report Password format)
- Enabling OTP on the Income Statements page is optional.
- **This feature works best on desktops and iPads. Please avoid using on your mobile browser.**
