REMOTE SERVICING FRAMEWORK

STEP		SUMMARY
Step 1	Accomplish the form	1. Download the editable Policy Servicing Form(s) from Advisor Home Office > Downloads section. 2. Accomplish the form for/with the client.
Step 2	Prepare for Client Review	1. Create an encrypted file for the Policy Servicing form. 2. Send it to the client using your Sun Life email.
Step 3	Get Client Acknowledgment	Two options: 1. Request client to sign the Policy Servicing form digitally using Adobe Acrobat Reader software 2. If unable to add a signature, email the Client Confirmation to the client and request them to send their "I Agree" response.
Step 4	Prepare to submit	Create an encrypted file for the accomplished form, and Client Confirmation response (if applicable).
Step 5	Submit the form	Email the Policy Servicing Request with this format: 1. From: Advisor's Sun Life email address 2. To: Handling department (see slides 16-27) 3. Cc: Client's registered email 4. Attachment: Accomplished forms, client's Valid ID, and client confirmation (if applicable) 5. Body: Advisor Attestation

Major differences between Remote Selling and Remote Servicing:

- Client eSignature on the editable PDF is allowed
- Client is ALWAYS copied in the email to Sun Life

Step 1:

Accomplish the Form

1

Accomplish the Form

Advisor downloads the Servicing Form and fills it out with the client.

PRO-TIP

To fill out an editable PDF, make sure you have PDF free Adobe Acrobat Reader installed in your device

GOOD TO KNOW

These forms do not possess a unique serial number. You can download once then duplicate the form in your device to reuse it.

Fill out the form for/with the client

Accomplish the form for the client

- Fill out the form for the client with details you have discussed.
- If the client has multiple requests, you can download the relevant forms and fill it out for the client.

What if the client prefers to fill out the form on their own?

Some clients may prefer to just fill out the form by themselves. When this happens, ensure that:

- Your client has Adobe Acrobat Reader installed in their device
- You assist them in understanding the form's contents so they can fill it out more accurately

Step 2:

Prepare for Client Review

1

Accomplish the Form

Advisor downloads the Servicing Form and fills it out with the client.

2

Prepare for Client Review

Advisor emails the Servicing Form and client reviews the form.

3

Get Client Acknowledgment

Client can sign the form or send a Client Confirmation Email response.

4

Submit Request to Sun Life

Advisor emails the form and valid ID to Sun Life. Client is copied in the email.

5

Handle documents securely.

Once request is completed, delete all copies from your personal device.

Password-protect the form in a zip file

Secure files

- Practice Digital Safety by creating a password-protected zip file for the form(s) that has the client's Personal Identifiable Information (PII) in it.
- As a best practice, use the prescribed zip file password format.

Sending blank forms

- If the client prefers to fill out the Servicing Form on their own, you can email the blank form to them without creating a password-protected zip file.

Step 3:

Get Client Acknowledgment

1

Accomplish the Form

Advisor downloads the Servicing Form and fills it out with the client.

2

Prepare for Client Review

Advisor emails the Servicing Form and client reviews the form.

3

Get Client Acknowledgment

Client can sign the form or send a Client Confirmation Email response.

4

Submit Request to Sun Life

Advisor emails the form and valid ID to Sun Life. Client is copied in the email.

5

Handle documents securely.

Once request is completed, delete all copies from your personal device.

Get the Client Acknowledgment

Option 1: Sign Form Digitally

In Servicing, your client has to sign directly on the Policy Servicing PDF Form.

PDF eSIGNATURE DO'S AND DON'TS

- ✓ eSignature must be comparably the same as the wet signature
- ✓ Make sure the client has Adobe Acrobat Reader installed
- ✓ When using a computer, the client can take a photo of their wet signature, transfer it to their computer, and attach it to the PDF as a signature
- ✗ Do not use the "Type" function in Adobe Acrobat Reader's Fill & Sign feature
- ✗ Do not ask your client to send you a picture of their signature. You should not have a copy of the client's signature specimen.

Option 2: Send Client Confirmation

If your client does not have a way to sign the PDF form directly, they can continue with the Client Confirmation method like in Remote Selling.

The screenshot shows an email from Juan Miguel Dela Cruz (jmsdc@gmail.com) dated Mon 4/6/2020 10:39 PM. The subject is "Re: For Review and Confirmation: Sun Life Policy Application Package". The email body contains a "CAUTION" banner, a dashed box with "I agree" and "Applicant/Life Insured must declare 'I agree'", and a "CLIENT CONFIRMATION" section. The confirmation section includes fields for Full name, Mobile number, Email address, and Photo of yourself holding a valid photo-bearing ID. A green box highlights the "Complete confirmation message must be visible" requirement.
