TRADITIONAL PLANS

1. Premiums, cash values and death benefits are pre-determined.
2. Policyholders do not have investment options
3. Implicit charges
4. Dividends are not guaranteed (PARTICIPATING PLAN ONLY)

Examples:
TERM
PERMANENT (or WHOLE LIFE)
ENDOWMENT

V.U. L PLANS

1. Fund Values are not pre-determined
2. Additional premiums may be allowed (Top Ups)
3. Policyholders may have investment options
4. Explicit charges (transparent)

Examples:
REGULAR PREMIUM
SINGLE PREMIUM

DEFINITION OF TERMS

- **Variable Unit-Linked** is an investment-linked life insurance plan that provides protection and the opportunity to grow savings over time.
- **Unit Pricing** The process whereby the unit price of units is set
- **Net Asset Value Per Unit (NAVPU)** The unit price which the insurer uses to allocate units to a policy when premiums are paid or if the policyholder wishes to cash in or claim.
- **Fund Value** Number of Units bought multiplied by the unit price (NAVPU)
- **Top-Ups** Single premium injections which can be used to buy additional units
- **Premium Holiday** Refers to the cessation of premium payments on a variable life insurance contract for a period, with a view to continue it later on.
- **Forward Pricing** A pricing structure wherein the Offer Price are determined at the next valuation date.
- **15-day Cooling Off Period** The contract may be returned within 15 days of receipt by the policyholder.
- **Fund Switching** A facility for transferring from one fund to another. Limited number of switches are usually not charged
- **Fund Allocation** Changes in fund allocation (percentage) in the policy

WHAT IS VUL?

Variable Unit-Linked or **V.U.L** is an investment-linked life insurance plan that provides protection and the opportunity to grow savings over time.

Insurance Protection:

Pays out a minimum guaranteed amount of insurance coverage in case of Insured's death*

**Amount of coverage or death benefit varies between Regular & Single Premium VUL*

Savings/Fund Value:

Accumulates a variable & non-guaranteed amount that is linked to the investment fund/s chosen by the client

Balanced: Fixed Income and Stocks

WHAT'S IN IT FOR THE CLIENT?

PRODUCT FEATURES

CUSTOMER VALUE

INVESTMENT FUNDS

- You have access to investment funds. You have a choice which funds to choose. It gives you potential return. Since the underlying assets are bonds and stocks, historically, they're known to beat inflation and gives better returns.

DIVERSIFIED

- When you enter each fund, it gives you opportunity to have basket of investments. You are invested in several companies. Being diversified is a good practice to manage risk.

PROFESSIONAL MANAGEMENT

- This product has a built-in professional management. You have instant knowledge and expertise given by the fund managers.

LIFE INSURANCE COVERAGE

- There is life insurance built into this solution. It guarantees certain amount pass on to your family in case something happens to you. They'll be assured of continuing income and address final expenses.
- **FOR SP:** It gives you a floor. In case of death and the market is down, your family will not fully-embraced the effect of market downturn. It gives you a floor of 125% of the single premium.
