CONCEPTS OF RETENTION LIMITS AND REINSURANCE

RETENTION LIMIT is the total amount of risk a company will assume on its own per individual life.

- Sun Life has separate retention limit for:
 - Individual Life
 - GIO
 - Group Life

BASIC LIFE RETENTION LIMIT

AGE	STANDARD TO 200%	201% TO 300%	301% TO 500%	OVER 500%
0 – 25	20 Million	16 Million	8 Million	500 thousand
26 – 60	30 Million	20 Million	12 Million	500 thousand
61 – 70	20 Million	16 Million	8 Million	Decline
Over 70	10 Million	8 Million	4 Million	Decline

Amounts are in Philippine Peso currency.
For USD, use exchange rate Ps. 50.00 = USD 1.00

ADB and ADDD LIMIT

AGE	SUN LIFE	SUN LIFE + OTHER COMPANIES
0 – 65	75 Million	100 Million

ADDD Maximum Limit per life = 30 Million

Amounts are in Philippine Peso currency.

For USD, use exchange rate Ps. 50.00 = USD 1.00

ADB – ACCIDENTAL DEATH BENEFIT

ADDD – ACCIDENTAL DEATH, DISABILITY AND DISMEMBERMENT

Example:

Client A

Existing ADDD with Sun Life = Ps. 20 Million

Existing ADB with other companies = none

To compute allowed ADB coverage:

Ps. 75 Million (maximum ADB allowed for Sun Life Policies only)

- Ps. 20 Million (existing ADDD coverage with Sun Life)

Ps. 55 Million (Maximum ADB in new application)

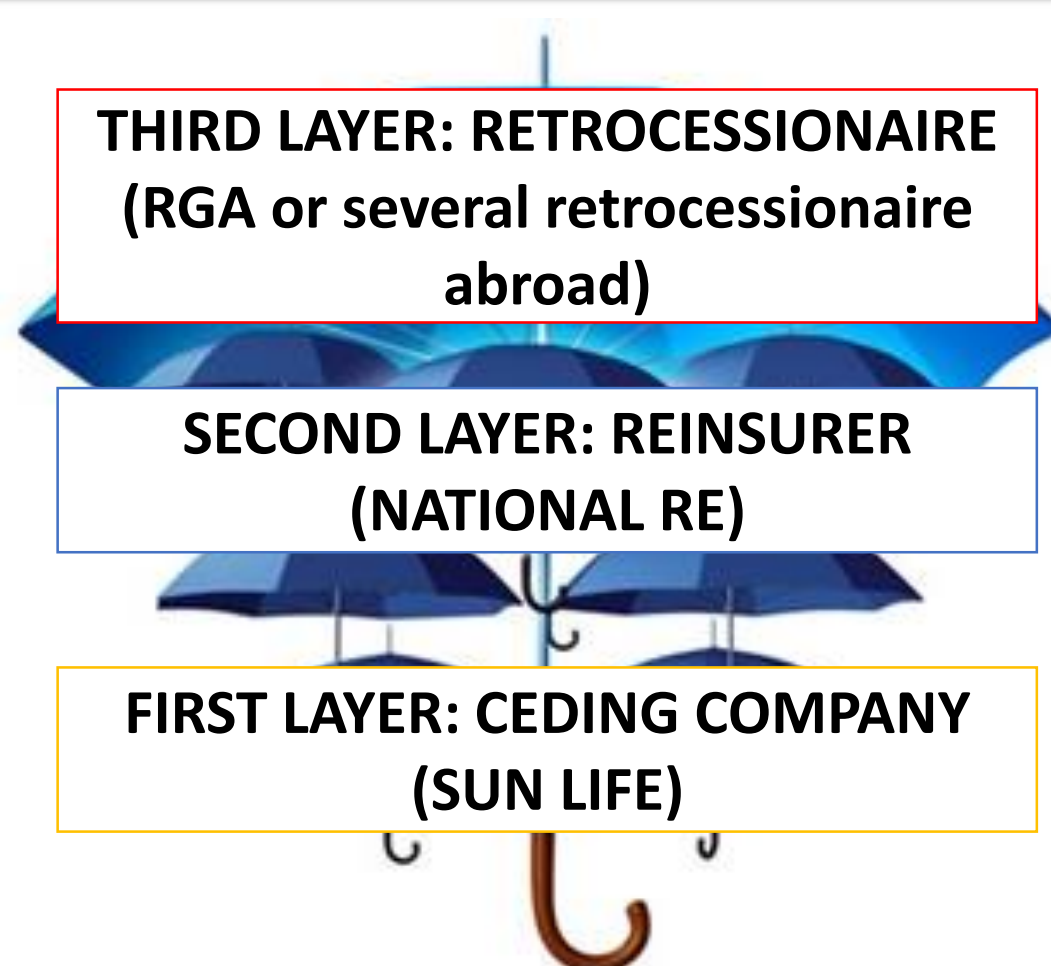

ADB/ADDD LIMIT

CONCEPTS OF RETENTION LIMITS AND REINSURANCE

REINSURANCE is insurance purchased by an insurer (called “ceding company” such as Sun Life) from another insurer (called “reinsurer”) to limit the loss a ceding company would experience in the event of a claim.

THREE LAYERS OF REINSURANCE

The diagram illustrates the three layers of reinsurance using a visual metaphor of stacked umbrellas. At the top is a large green box labeled 'THREE LAYERS OF REINSURANCE'. Below it, three umbrellas are stacked vertically. The top umbrella is blue and has a red-bordered box labeled 'THIRD LAYER: RETROCESSIONAIRE (RGA or several retrocessionaire abroad)'. The middle umbrella is blue and has a blue-bordered box labeled 'SECOND LAYER: REINSURER (NATIONAL RE)'. The bottom umbrella is blue and has an orange-bordered box labeled 'FIRST LAYER: CEDING COMPANY (SUN LIFE)'. The umbrellas are arranged such that the top one is the largest and the bottom one is the smallest, creating a sense of depth.

**THIRD LAYER: RETROCESSIONAIRE
(RGA or several retrocessionaire
abroad)**

**SECOND LAYER: REINSURER
(NATIONAL RE)**

**FIRST LAYER: CEDING COMPANY
(SUN LIFE)**

TWO TYPES OF REINSURANCE TREATY

AUTOMATIC

Sun Life is given the full responsibility to underwrite the case and make a decision.

Faster TAT because the case does not need to be seen by the reinsurer.

Sun Life undergoes periodic audits to ensure compliance to treaty arrangements (such as routine requirements).

FACULTATIVE

Reinsurer evaluates the complete case file.

Reinsurer chooses the risk it wishes to accept rather than be bound automatically. It may accept or decline a risk.

Once facultative, the case will always be facultative.

AUTOMATIC REINSURANCE LIMIT

AGE	STANDARD TO 300%	301 TO 500%
0 – 25	100 Million	50 Million
26 – 60	200 Million	100 Million
61 – 65	200 Million	100 Million
66 – 70	100 Million	50 Million
71 – 79	100 Million	50 Million

Amounts are in Philippine Peso currency.

For USD, use exchange rate Ps. 50.00 = USD 1.00

REINSURANCE LIMIT

FINANCIAL UNDERWRITING

Aggregation of total in-force coverage, pending application with SLOCPI and insurance coverage other companies.

FINANCIAL REQUIREMENTS

Amount (Ps.) Ps. 50.00 = USD 1.00	Requirements
Up to 10M	None

TOOLS IN FINANCIAL UNDERWRITING

- Application Form

Information	UW Significance
Age of Proposed Insured	Years of future employment
Occupation	Future potential income
Income	Current income
Insurance in force and amount of requested coverage	Current and requested coverage compared to total needed coverage
Relationship between proposed insured and policy owner, if not the same person	Presence of insurable interest
Relationship between proposed insured and beneficiary	Justification of amount of coverage
Net worth	Estimate estate value and estate tax needed

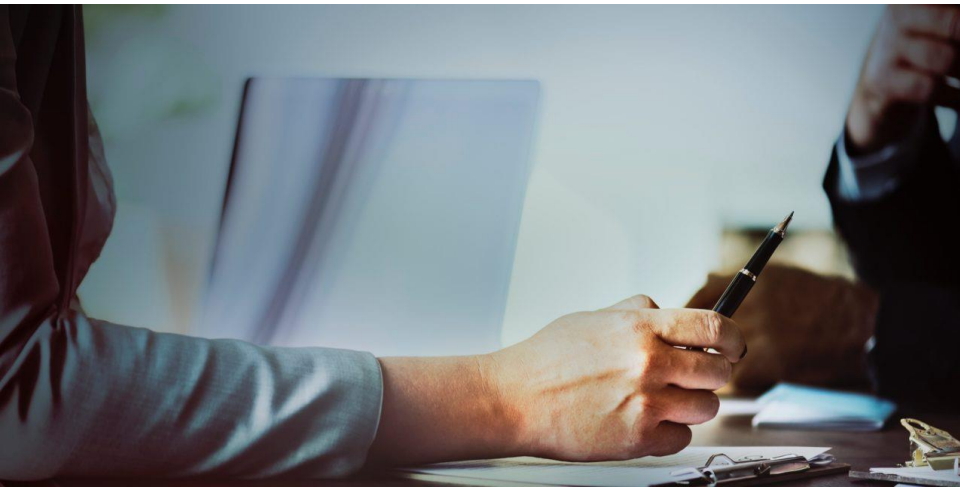

TOOLS IN FINANCIAL UNDERWRITING

- **Advisor's Confidential Report**
- **Financial Questionnaire**
- **Covering letter submitted by advisor to justify coverage applied**
- **Inspection Report**
- **Audited Financial Statements – Personal/Business**
 - **past 2 years is required**
 - **historic trend of profit or loss**
 - **financial obligations to which the business is or will be committed**
 - **evidence of plans to expand, restructure or sell the business**

TOOLS IN FINANCIAL UNDERWRITING

- **Proof of Income – Income Tax Returns or Certificate of Employment**
- **Proof of business ownership – GIS/DTI certificate**
- **Proof of properties – land titles with report on the market value**
- **Financial plan/Needs Analysis**
- **Copy of Sales Presentations**
- **Face to Face interview with client and sales team**

PURPOSE OF INSURANCE

PERSONAL INSURANCE

- Income replacement
- Estate conservation/protection
- On lives of children
- On lives of dependent spouse
- On lives of elderly applicants
- Final expenses

BUSINESS INSURANCE

- Key Person
- Creditor
- Business repurchase or Buy-Sell

PURPOSE OF PERSONAL INSURANCE

Example of Age-Need Correlation for Personal Insurance

Age	Need for Insurance
25 to 55	Income replacement to support surviving family members and proceeds to help pay off existing debt
55 to 65	Income replacement and retirement needs
Over 65	Final debts and expenses Estate costs and preservation

1. INCOME REPLACEMENT

- This is the usual reason to purchase insurance
- Most common method is using **income multiples**, which take into account the number of productive years, therefore, it reduces with age.
Example: Age <30 = 15; 31-35 = 14; 41-45 = 13 55-60 = 5; >60 = 4
- Income = Earned income (derived from profession, occurring regularly
Example:
 - a. Employee: Gross income + bonus + commissions
 - b. Self-employed: Pre-tax income

BASIC INSURANCE COVERAGE COMPUTATION

Maximum Insurance for income replacement = $\text{Annual Income} \times \text{Income Multiplier}$

AGE and INCOME MULTIPLIER

30 = 18	40 = 14	50 = 08	60 = 05
31 = 18	41 = 13	51 = 08	61 = 05
32 = 17	42 = 13	52 = 07	62 = 04
33 = 17	43 = 12	53 = 07	63 = 04
34 = 16	44 = 12	54 = 07	64 = 04
35 = 16	45 = 11	55 = 07	65 = 04
36 = 16	46 = 10	56 = 06	66 = 03
37 = 15	47 = 10	57 = 06	67 = 03
38 = 15	48 = 09	58 = 06	68 = 03
39 = 14	49 = 09	59 = 05	69 & 70 = 02

HOSPITAL INCOME BENEFIT COMPUTATION

HIB/day = $\text{Annual income divided by 250 days}$ or HIB amount should be within 0.5% of basic life coverage.

CRITICAL ILLNESS BENEFIT COMPUTATION

Maximum CI for **WORKING INDIVIDUAL** =
 $\text{Annual Income} \times \text{Income Multiplier}$

AGE and INCOME MULTIPLIER

30 – 40	10
41 – 50	10
51 – 60	8
61 – 65	5
66 – 70	2

Maximum CI for **NON-WORKING INDIVIDUAL** =
15% of NET WORTH

Maximum CI for **NON-WORKING INDIVIDUAL** with child or grandchild as applicant:
 $\text{Income of son/daughter or grandchild} \times \text{Income Multiplier of proposed insured based on age}$

CALCULATION OF MAXIMUM INSURANCE COVERAGE

PURPOSE OF PERSONAL INSURANCE

2. ESTATE PRESERVATION

- Usually applied for estates of substantial value
- It is used to preserve value of estate so it can be passed on to heirs
- **Estate plan** is where tax liability has been already projected and transfer cost has been determined
- It **helps avoid** reduction in value of estate and hasty sale of assets to fulfill financial obligations
- **Supporting Financial Documents:**
 - a) Proof of ownership of properties/assets covered by estate tax like Transfer Certificate of Title (TCT)
 - b) Articles of Incorporation/GIS of business
 - c) Time Deposits
 - d) Stock certificates, Club membership certificates, etc.

Sample Case for Estate Tax Need Computation

Net worth is Ps. 500 Million.

The amount of insurance that client can buy is Ps100 M to address estate tax liability.

Computation:

Ps. 500 Million x 6% estate tax rate = Ps. 30 Million

PURPOSE OF PERSONAL INSURANCE

3. ON LIVES OF CHILDREN

- Ideally, children have low insurable value but they are being insured in anticipation of insurance needs as adults while they are still in excellent health and premium cost is low
- The most common purpose of insurance for children is to provide funds for education
- Generally, parents, grandparents, and legal guardians have insurable interest in the life of a child.

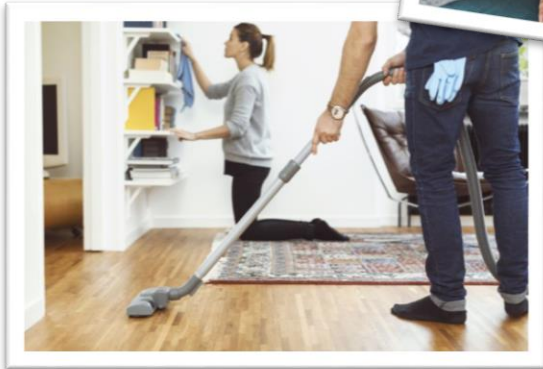

Underwriting concerns:

1. Over-insurance
2. Early lapsation due to low cost and lack of strong need for insurance
3. Preventing speculation
 - coverage must be proportional to the family's financial status and existing coverage of parents
 - (ideally, we allow only 50% of what the parents have)
4. Ruling out anti-selection
 - There must be similar amounts for all the children or applications must be submitted in a logical sequence

PURPOSE OF PERSONAL INSURANCE

4. ON LIVES OF DEPENDENT SPOUSE

Challenges for Underwriting:

- Difficult to calculate the insurable value
- Provide services to the family that are not financially compensated

Important to know:

- Needs analysis approach can be adapted: cost of replacing services with outside vendors assuming that surviving spouse will not work to replace deceased spouse. Calculate the lost income of surviving spouse

PURPOSE OF PERSONAL INSURANCE

5. ON LIVES OF ELDERLY CLIENTS

Independent:

- Traditional and Non-traditional financial underwriting
- **Multiples are lower**

Dependent but otherwise healthy/autonomous:

- Needs are not always clear but certain assumptions can be made: **final expenses, replacement cost for services contracted out (domestic help), replaces expenses paid by adult children**
- *MODEST amounts*

6. FINAL EXPENSES

- Provides liquidity (cash)
- Avoids hasty sale of assets to meet financial obligations

What are these final expenses?

- Funeral cost
- Admin cost
- Debt
- Outstanding taxes
- Probate fees/legal fees

PURPOSE OF BUSINESS INSURANCE

KEY PERSON INSURANCE

About the key person:

- Indispensable to the success of the business
- Special skill or knowledge
- Influence on the operation of the business

Challenges for Underwriting:

- Qualifying the proposed insured as key person
- Quantifying potential financial loss caused by his/her death

CREDITOR INSURANCE

- Covers the economic loss if the borrower dies unexpectedly
- Creditor is legally entitled only to that portion of the loan that has not been repaid

Two types of creditors:

1. established institutions like banks
2. individual creditor (underwriting is stricter)

Challenges for Underwriting:

- Ruling out speculation
 - **Red flag:** when insurance appears to be the only way the loan can be repaid
- Checking borrower's character, reputation and ability to pay

BANK OR FINANCIAL INSTITUTION AS BENEFICIARY

- Using AOA, write the complete and correct **creditor's clause:** *(Name of Bank/ Financial Institution, address) creditor, it's successors/assigns as its interest may appear and the balance if any to (name of immediate family member), (relationship to the insured).*
- Submit copy of **bank loan approval.**
- Submit an advisor's report regarding full details of loan: purpose of loan, date of loan principal amount terms of repayment status of loan application

INDIVIDUAL CREDITOR AS BENEFICIARY

- Using AOA, write the complete and correct **creditor's clause:** *(Name of creditor) creditor, it's successors/assigns as its interest may appear and the balance if any to (name of immediate family member), (relationship to the insured).*
- Submit copy of **notarized loan agreement.**
- Submit an advisor's report regarding full details of loan: purpose of loan, date of loan principal amount terms of repayment status of loan application

PURPOSE OF BUSINESS INSURANCE

BUSINESS REPURCHASE OR BUY AND SELL

- Often part of buy-sell agreement between owners
- Provides funds to buy out interest of deceased owner
- Allows the business to continue uninterrupted & void hasty sales of assets
- Underwrite according to each individual's ownership in the business
- Excessive amounts can be anti-selective or speculative
- Consider: the value of the business

Example: Partner A has Ps. 50 Million share while Partner B has Ps. 25 Million share in the partnership

- Partner A can be covered for Ps. 50 M making partner B the beneficiary
- Partner B can be covered for Ps. 25 M making partner A the beneficiary

COVER LETTER

The underwriters consider the advisor as a reliable source of financial information.

The cover letter provides the underwriter with a **comprehensive source of “up front” information.**

Instructions and Checklist For Preparing Cover Letter

Building	20-storey	QC	P=50 Million
 - ☐ Net worth (Assets minus Liabilities)
 - ☐ Other information which will help convince the insurance company and reinsurer to accept the application.
(Example: marketing or sales information on companies owned by the client like advertising material, magazine articles, newspaper clippings, websites associated with news of the owner and his/her family/partners, websites for the company when applicable, etc.)
- MOST IMPORTANTLY: SHOW INSURANCE NEEDS CALCULATION:**
- Income replacement (use multiple of income)
 - Estate tax calculation (If estate more than P=5Million, use 20% estate tax rate)
 - Loan amount (supported by copy of loan agreement)

B. Start Your Cover Letter Here ▶

For Client: Name	Financial Advisor: Name
------------------	-------------------------

COVER LETTER

For **Personal Insurance**, the cover letter should highlight the following:

- How you met the client?
- How well you know him?
- Information on health history
 - does he exercise?
 - Walks/runs a mile a day?
 - does treadmill?
 - plays golf regularly?
- Is his family active in the community/church activities
- Is his family into politics?
- Lifestyle
- Social Standing
- Third Party articles on the client: magazine or newspaper articles

For **Business Information**, the cover letter should highlight the following:

- Describe nature of his business.
 - Does he have other businesses aside from the one declared in the application.
 - Is his business in the top 1,000 corporation?
 - If business is a corporation, show breakdown of his percentage ownership shares in the business which can be obtained from the articles of incorporation or GIS.

Example:

Business Name & Address	Nature of business	% Ownership in Equity (2008)	Income (2008)
ABC Corp, Quezon City	Garments Mfg.	50% = Ps75 Million	Ps10 Million
XYZ, Inc, Makati	Cargo	25% - Ps90 Million	Ps21 Million

3. How much is his total insurance with Sun Life and other companies? Replacement details (i.e. policies in-force) which will be discontinued once the new policy is issued.

4. Background information of the sale, and reasons for buying insurance.

5. Description of his properties (to include property size, location, market value, time deposits/investment, club membership shares, brand and worth of luxury cars, credit cards, jewelries, antiques, etc)

COVER LETTER

6. How much is his net worth?

7. Other information about the client which will help convince insurance company and reinsurer to accept the application.

8. And most importantly – **SHOW INSURANCE NEEDS CALCULATION**

- * Income replacement calculation (use multiple of income)
- * Estate tax calculation (if net worth is more than Ps5M, use 20% estate tax rate)
- * Loan amount (if any – supported by copy of loan agreement)

SOME HELPFUL TIPS

- 1 Submission of routine medical and financial requirements *together* with the application guarantees faster processing of LARGE cases.
- 2 Always encourage your client to declare his/her total coverage locally and off shore. Our reinsurers can check off shore coverages.
- 3 If the official FS are understated, please request for the in-house FS.
- 4 Insuring children for big amounts is always a challenge. Be prepared to justify the application, that is, show calculation how the amount was arrived at.
- 5 When a client has been approved under automatic limit, we suggest completing the transaction before increasing the coverage to the point it breaches the facultative limit. This is due to possible difference in UW decision between Sun Life and reinsurer.

SAMPLE COVER LETTER

June 02, 2017

JUN 09 2017

New Business
Sun Life of Canada Phils. Inc.
BGC, Taguig

Dear Ma'am,

This letter is to introduce my client, [redacted] who is applying for a Php 50M coverage. [redacted] is not a stranger to Sun Life, having been a loyal and good client of our company since 2006 when he bought his first policy with us. Since then, we have constantly been able to update him on the latest investment and insurance products, knowing that this is something he appreciates. [redacted] is a schoolmate from high school and I have known him for more than 30 years. [redacted] is married to [redacted] who will also be applying for the same amount in mid-June. He is the 2nd eldest in a family of 07. He has a brother who is also in the construction business, another sister who is a surgeon in the U.S, two sisters who are bank supervisors and another sister [redacted] also in the construction business and a policy owner with us, insured for more than Php 50M.

His daily routine includes meeting with his clients and overseeing his employees while his wife takes care of the logistics and finance part. He does not have a regular doctor since he has no known illness but he has blood tests done from time to time with Caritas for personal monitoring reasons since he is very health conscious and plays badminton and basketball on a regular basis. Wilson eats everything in moderation and tries to eat wholesome meals daily, and therefore able to keep his weight and in fitness agility in prime condition. He is involved in high school alumni activities and is very visible in charitable and homecoming events.

While on one such reunion last April, [redacted] mentioned to me that his business is really doing well and that his company has recently been awarded several large scale projects. This gave me an idea that his existing coverage with us may no longer be sufficient since his business has grown tremendously, when he bought his first policy with us. Together with his wife [redacted] they own Optech Finishing Solutions, Inc. and Jowilshire Unlimited Trading Corporation. The two companies engage mainly in construction, construction supplies, painting works, water proofing, and CCTV installations.

①

Their businesses began in 1995 and from a manpower of more than 50, they are now fully engaged, at one time employing over 300 employees to do the extensive projects they have. Some of his employees include engineers, foreman, workers and accounting staff and personnel. Currently he has about 60 employees on full - time payroll.

Some of the relevant projects he has completed include buildings like, Eastwest Bank, our own Sun Life office in Legaspi, Robinson's mall and buildings, Grand Shang Tower, Philam Life in Salcedo, San Beda Colleges, Megaworld projects, Chinese General Hospital, UST-Medicine, and currently Walmart, Sunshine Plaza (Ayala Project) Greenbelt 4 & 5, and more. These contracts were awarded because their company has already earned a reputable image in the industry through the years.

When I went to visit him last May, he was open to the idea of increasing his coverage to PHP 100M, since he felt that his old policies seemed smaller now due to inflation. We agreed to apply for this and then he has finally decided to split the PHP 100M to PHP 50M for himself and 50M for his wife.

Below are the documents, showing the breakdown of his % ownership shares in all the business. Also attached are a list of their real estate investments (deeds of sale as proof of ownership) and estimated current value.

Net Income	Income Factor = 8
Php 11M - 2015	Php 11.5M
Php 12M - 2016	_____ x 8
(Average income for the past 2 years)	Php 92 M

Income comprises of Php 800,000/month gross salary and shares in the company's profits. I have submitted the GIS of [redacted] limited and the ITR of said company, with [redacted] owning 20.5% share of said company. They also own Optech Finishing Solution, unfortunately they are still in the processing of amending the GIS, and I cannot provide a copy of that at the moment. I am submitting an in-house statement of the spouses instead.

②

SAMPLE COVER LETTER

I have also included a list of their real estate documents / titles / deeds of sale as proof of ownership. Here is a summary of some of their properties and deeds of sale (including the newly acquired without a title yet).

Estimated value

1. Pandacan, Manila	Php 22.5M
2. Residence in Paco (5 storys)	Php 25M
3. Office Residence in Paco #2	Php 18M
4. Calamba, Laguna	Php 11.5M
5.	Php 15M
6. Newly Acquired	<u>Php 25M</u>
	Php 117M
	<u>50%</u>

Total estate approx. Php 58.5M share
20% - (estate tax)
Php 11.7M - (estate tax due)

Therefore,

Php 92 M - For Income replacement need
Php 11.7M - Estate tax need
Php 103.7M - Total insurance need
-26.6M - Existing insurance
Php 77.1M - deficit

is also an avid car collector. He owns 6 vehicles, one of them is a new Mercedes Benz with Php 7M in market value, even though he hardly uses them. In fact, when he was still single, he owned 12 cars and only started investing more in land and properties much later on as his kids grew up.

3

Ma'am hopefully, the information I have disclosed will help you in assessing my client's application favorably. As you may have noticed in the application, he has just had his birthda l and is looking forward to have our company approve it so he can avail or nis last birthday. His w will also be applying for a Php50M coverage by the end of June as per our agreement.

I am praying that I have good news for him before then. Please let me know if I can help in whatever way I can for the speedy approval of this case.

Thank you for your kind attention and consideration.

SAMPLE AUDITED FINANCIAL STATEMENT

POL# 0815567758

Report of Independent Auditor

24 JUL 2017

Meycauayan City, Bulacan

I have audited the accompanying financial statements of which comprise the statement of financial position as of December 31, 2016 and 2015, and the related statement of comprehensive income, and statement of cash flows for the years then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Philippine Financial Reporting Standards for Small and Medium-sized Enterprises (PFRS for SME's). This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Philippine Financial Reporting Standards for Small and Medium-Sized Entities. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risks assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of

the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements present fairly, in all material respects, the financial position of as of December 31, 2016 and 2015 and of its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards for Small and Medium-Sized Entities.

Notes to the financial statements

For the year ended 31 December 2016

1. General information

The principal place of business is at the manufacturing and trading of plastic bags and other related products. Its principal activity is

2. Basis of preparation and accounting policies

These financial statements have been prepared in accordance with the Philippine Financial Reporting Standard for Small and Medium-sized Entities issued by the Philippine Accounting Standards Board. They are presented in Philippine pesos, which is also the company's functional currency.

Cash

Cash and cash equivalents comprise cash on hand and in banks, time deposits and short term investments with maturities of less than three months, which are subject to insignificant risk of change in value. These are carried in the books at cost, which approximates market.

Trade and other receivables

Sales are made either on cash or credit basis. In cases where sales are made on the basis of normal credit terms, the receivables do not bear interest. Where credit is extended beyond normal credit terms, receivables are measured at amortized cost using the effective interest method. At the end of each reporting period, the carrying amounts of trade and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. If so, an impairment loss is recognized immediately in profit or loss.

Inventories

Inventories are stated at the lower of cost and selling price less costs to complete and sell. Cost is calculated using the first-in, first-out (FIFO) method.

Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is charged so as to allocate the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The following annual rates are used for the depreciation of property, plant and equipment:

Building and Building Improvement	20 years
Office Furniture & Fixture	5 years
Machinery & Factory Equipment	10 years
Delivery and Transportation Equipment	5 years

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of an asset, the depreciation of that asset is revised prospectively to reflect the new expectations.

Impairment of assets

At each reporting date, property, plant and equipment, is reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. If estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in profit or loss.

SAMPLE AUDITED FINANCIAL STATEMENT

Similarly, at each reporting date, inventories are assessed for impairment by comparing the carrying amount of each item of inventory (or group of similar items) with its selling price less costs to complete and sell. If an item of inventory (or group of similar items) is impaired, its carrying amount is reduced to selling price less costs to complete and sell, and an impairment loss is recognised immediately in profit or loss.

If an impairment loss subsequently reverses, the carrying amount of the asset (or group of related assets) is increased to the revised estimate of its recoverable amount (selling price less costs to complete and sell, in the case of inventories), but not in excess of the amount that would have been determined had no impairment loss been recognised for the asset (group of related assets) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Trade payables

Trade payables are obligations on the basis of normal credit terms and do not bear interest. Trade payables denominated in a foreign currency are translated into Philippine Peso using the exchange rate at the reporting date. Foreign exchange gains or losses are included in other income or other expenses.

Revenue recognition

Revenue from sales of goods is recognised when the goods are sold and/or delivered, the significant risks and rewards of ownership and title has passed to the buyer and the amount of revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable, net of discounts and sales-related taxes.

Expense recognition

Expenses are recognized when decrease in future economic benefits related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably. Expenses are recognized when they are incurred.

Employee benefits—13th month pay, incentive leave, long-service payment, etc.

The liability for employee benefit obligations relates to government-mandated 13th month pay, incentive leave, long-service payments. All full-time employees are covered by the programme. The company does not fund this obligation in advance. The company's cost and obligation to make these benefits payments to employees are recognised during the employees' periods of service. The cost and obligation are measured using the method identified by the concerned government agency.

Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the leased asset to the Group. All other leases are classified as operating leases. Assets held under finance leases are included in property, plant and equipment, and depreciated and assessed for impairment losses in the same way as owned assets.

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease.

Income tax

Income tax expense represents the sum of the tax currently payable. The tax currently payable is based on taxable profit for the year. Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and their corresponding tax bases (known as temporary differences). Deferred tax liabilities are recognised for all temporary differences that are expected to increase taxable profit in the future. Deferred tax assets are recognised for all temporary differences that are expected to reduce taxable profit in the future, and any unused tax losses or unused tax credits. Deferred tax assets are measured at the highest amount that, on the basis of current or estimated future taxable profit, is more likely than not to be recovered.

There is no income tax currently payable because the statement of income shows net operating loss for the year.

Borrowing Costs

Borrowing costs are interest and other costs that the company incurs in connection with the borrowing of funds. The company shall recognize all borrowings costs as an expense in profit or loss in the period in which they are incurred.

Related Party Disclosures

The company shall include in its financial statements the disclosures necessary to draw attention to the possibility that its financial position and profit or loss have been affected by the existence of related parties and by transactions and outstanding balances with such parties. The company shall disclose key management personnel compensation.

Events after reporting period

Events after the reporting period are those events, favourable and unfavourable, that occur between the end of the reporting period and the date when the financial statements are authorized for issue. Any event after the reporting date that provide additional information about financial position at the balance sheet date are reflected in the financial statements. Events that are not adjusting events are disclosed in the notes to the financial statements when material.

**CERTIFICATE OF FILING
OF
ARTICLES OF INCORPORATION**

KNOW ALL PERSONS BY THESE PRESENTS:

THIS IS TO CERTIFY that the amended articles of incorporation of the

copy annexed, adopted on April 25, 2007 by majority vote of the Board of Directors and by the vote of the stockholders owning or representing at least two-thirds of the outstanding capital stock, and certified under oath by the Secretary and a majority of the Board of Directors of the corporation was approved by the Commission on this date pursuant to the provision of Section 16 of the Corporation Code of the Philippines, Batas Pambansa Blg. 68, approved on May 1, 1980 and copies thereof are filed with the Commission.

Unless this corporation obtains or already has obtained the appropriate Secondary License from this Commission, this Certificate does not authorize it to undertake business activities requiring a Secondary License from this Commission such as, but not limited to acting as: broker or dealer in securities, government securities eligible dealer (GSED), investment adviser of an investment company, close-end or open-end investment company, investment house, transfer agent, commodity/financial futures exchange/broker/merchant, financing company, pre-need plan issuer, general agent in pre-need plans and time shares/club shares membership certificates issuers or selling agents thereof. Neither does this Certificate constitute as permit to undertake activities for which other government agencies require a license or permit.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of this Commission to be affixed at Mandaluyong City, Metro Manila, Philippines, this 09 day of June, Two Thousand Seven.
